# TOTAL MARKETING CONCEPTS

On The Edge Marketing

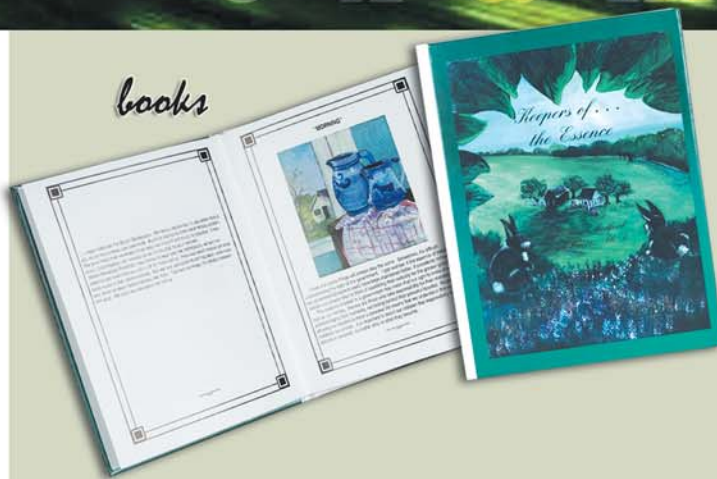

Total Marketing Concepts offers an array of services and expertise. We have over fifteen years of combined, qualified experience in pre-press production, printing arrangements, photography, computer graphic design, advertising, direct marketing, website design and many other marketing techniques.

We can help you with an entire direct marketing campaign, or develop any portion of your marketing project including advertising, brochures, literature, flyers, logos, etc.

*Our goal is to meet all of your marketing needs!*

*books*

"The Keepers of the Essence was my first book which included photographs of my artwork. I found the photography to have been extremely professional. Coordination of the prints with the written material was very well done. The staff worked with me to bring the ideas of my book to life."

~Karen Wuertz, Ph.D.~

*art & design*

*promotional items*

*magazine ads*

*business cards*

*logos*

*brochures*

"One of my first assignments as a member of the Marshall County Development Corporation was to revise and update the County Tourism Brochure. The task required revising a significant portion of the old brochure including a change in format. We asked Total Marketing Concepts to prepare the brochure to be ready for printing. We were most pleased with the quality and professional look of the work. We are proud of the brochure. The board just approved another order of 10,000 copies."

~William J. Oborny~
